## Class Weekly Newsletter

Friday 26th May 2017

### News From Class 3

What a busy week we have had in the sun! We started the week with year 6 finishing their bikeability training and achieving their level 2 awards. They had great weather for it and worked hard and listened well.

On Tuesday we went on our class trip to Tesco! The children explored the back rooms of the store and stood in the huge freezer. We then looked around the store learning about how the store is organised and finding out how they bake the bread. The children then took part in some group activities, going off around the store searching for items of food that were fairly traded or comply with the rainforest alliance and looking at where they had come from. It was a great trip and the children's behaviour was impeccable in a busy supermarket. I was incredibly proud.

Half the class also took part in a cricket tournament on Wednesday where they were out in the sun all day. Well done for keeping playing and thank you to Mrs Milburn for providing the ice lollies and Miss Reinsch, Mrs Hardcastle and Mr Woolston for accompanying the children.

We have had some fabulous half term homework on the Stuarts and some of this will be displayed in the classroom after half term. Thank you Class 3 for all your hard work and have a lovely holiday!

### News From Class 2

It has been such a lovely week! We have continued focusing on the topic of 'kindness' this week and the children have produced some great work. In literacy, we have written acrostic poems about friendship and have looked at the 10 Commandments in the Bible and then written our own commandments to follow to make our world a lovely place.

In numeracy the children have worked in pairs to conduct their own survey to find out what the children of Class 2 think is the most important quality for a friend to have. They made their own tally charts and will present their data in pictograms and bar charts. So far 'honesty' and 'funniness' are the frontrunners!

We had a wonderful end to the day yesterday when we shared the counting books we made in French with the Class 1 children.

### News From Class 1:

**Hello sunshine!** What a glorious week! Lets hope it's here to stay. We have had a lot of fun planning our own alternative stories for the three little pigs. We've had the three little mice and the big bad cat, the three little stars and the big bad moon and the 3 little carrots and the big bad turnip. We're very excited and have started to think about different materials for the houses.

In numeracy we have had fun problem solving. We were trying to find out the answer to 'Is the tallest person the oldest person?' We talked about what we needed to do to find this answer and handed out roles to the children. Some were busy finding out when people's birthdays were, using tally charts. Another group recorded their results in a pictogram. Some of the other children were busy measuring all their heights, recording what they had found in a table. We pulled all our results together and found that the tallest person was not the oldest person and we could prove it! Emma wanted to add me to her results which obviously changed what we had found out. Suddenly the oldest person was the tallest! That was until we measured Mrs Hobson... There was so much discussion and learning taking place and a buzz of excitement around the classroom. I hope you have a lovely holiday. Enjoy the sunshine and please keep safe :)
