9 January 2018

Dear Parents/Carers

### Visit from the Wonderdome – January 16 2019

We are very excited to tell you about this visit that has been arranged for next week to complement our Science curriculum/Space topic.

Wonderdome is a fascinating, fun and interactive Primary School Planetarium Show which takes the learners on a journey through space.

The show has been designed to link perfectly with the Science National Curriculum and the children will learn amazing facts about our solar system and beyond, including taking a flying visit to and learning about our incredible neighbouring planets; finding out what it is like to live on a spaceship and enjoying the experience of being weightless!

Also included will be a wonderful session when the entire night sky will be projected onto the inside of the dome and the children can look at the beautiful stars and constellations. The presenter will explain how to identify certain stars and constellations and tell some magical stories dating back to the times of ancient Greek mythology.

This will be a fantastic experience for the children.

To help cover the cost of the visit we are asking for a donation of £3.00 per child, preferably payable through ParentPay. Alternatively, payment can be made in cash via the school office.

Thank you for your continued support.

Kind regards,

Nicola Wilkinson
